

IHostPolicy::getHost

```
graph LR; A[IHostPolicy::getHost] --> B[ProcessGrid::getProcessor]; A --> C[ProcessGrid::getProcessorCount];
```

The diagram illustrates a delegation of responsibility. A gray box on the left, labeled 'IHostPolicy::getHost', has two blue arrows pointing to the right. The top arrow points to a white box labeled 'ProcessGrid::getProcessor'. The bottom arrow points to another white box labeled 'ProcessGrid::getProcessorCount'. This indicates that the 'getHost' method of 'IHostPolicy' delegates its task to either 'getProcessor' or 'getProcessorCount' of the 'ProcessGrid' class.

ProcessGrid::getProcessor

ProcessGrid::getProcessorCount
