

DuctteipLog::dumpStatistics

```
graph LR; A[DuctteipLog::dumpStatistics] --> B[DuctteipLog::getEventName]; A --> C[DuctteipLog::isPairEvent];
```

The diagram illustrates a call graph where the method `DuctteipLog::dumpStatistics` (highlighted in a grey box) calls two other methods: `DuctteipLog::getEventName` and `DuctteipLog::isPairEvent`. Arrows point from the source method to each of the target methods.

DuctteipLog::getEventName

DuctteipLog::isPairEvent
